WISTAR'S BALSAM OF WILD CHERRY.

We would advise our readers who are laboring under an affection of the lungs, to make immediate trial of this truly excellent medicine. The most intelligent and respectable families of our city have adopted it as a favorite family medicine; and persons predisposed to Consumption, who have used it, speak in the highest terms of its efficacy.

Scores of individuals have been cured of Asthma, the early stages of Consumption, bleeding of the Lungs, obstinate Coughs, &c., by this Balsam—after hope had well nigh yielded to despair. We say this in all candor. It is indeed a melancholy truth, that thousands fail victims to Consumption every year, for no other exame than neglected Colds; yet we find hundreds and thousands who treat such complaints with the greatest indifference, and let them run on for weeks, and even months, without thinking of the danger.

The great celebrity which it has already acquired, not only in the old, but in the new world—the extraordinary cures it has performed in the most extreme cases of suffering, have acquired for it such a reputation, that the proprietor has not—in ill recently—been able to supply half the demand. The sales throughout every city, town and village in the United States are without a parallel!

A circumstance not surprising, when the vast amount of human suffering relieved by its use is considered. In Spinal Defects the benefit usually is of the most decided character. In Nervous Complaints, nineteen cases out of twenty readily yield to the penetrating stimula combined in this valuable preparation.

In Rheumatism, either acute or chronic, the claims of the Hebrew Plaster have long since been universally acknowledged. Those who are laboring under weak backs, no matter from what cause the weakness may have originated—even if such persons have been misguided in previous applications—in the use of the Hebrew Plaster they will find the affected part suddenly restored to its original soundness.

As a supporter in cases of constitutional weakness it will be found of great advantage. It is particularly recommended to Females who are suffering from sudden weakness, or general debility. In short, 'embraces all the virtues which the most scientific in.
